

WORKSHOP: 14-15 September 2023

Environmental and economical feasibility to recover glass fibers The final program

Day 1 (14/9)		Day 2 (15/9)	
Arrival to the event!		Opening of Day-2	08.55
		Glass fibers - strong but sensitive, <i>Christina Scheffler (IPF)</i>	09.00
		Role of recycling industry, <i>Martins Niklass (ZAAO)</i>	09.30
		Industries: issues and solutions - <i>Anders Holmberg (Hitachi)</i> - <i>Birgitha Nystrom (PodComp)</i> - <i>Martins Millers (Valmiera Glass)</i>	09.50 10.10 10.30
		Break	10.50
		Introduction to LCA, <i>Carmen Cristescu (SLU)</i>	11.10
Welcome!	15.00	Waste mineral wool upcycled into alkali-activated facade panels and cobblestones with LCA, <i>Barbara Horvat (ZAG)</i>	11.40
Workshop's agenda, <i>Zainab Al-Maqdasi (LTU)</i>	15.15	Giving recycled fiberglass a new life in circular products, <i>Jakob W Nielsen (MILJØSKÆRM)</i>	12.10
GlassCircle project, <i>Liva Pupure (RTU)</i>	15.30	Break	12.30
Mapping glass fiber ecosystem for value creation thought circular use, <i>Student presentation (AU)</i>	16.00	Discussion panel, moderated by <i>Z. Al-Maqdasi and R. Joffe (LTU)</i>	12.50
Concluding remarks	16.30	Concluding remarks	13.50
